

Dear 2K Team Racers,

2013 has been an amazing year for the 2K circuit, many events, all over Europe, many different teams a lot of new faces, and of course quite amazing racing!

From the very start I was convinced that the 2K format is exactly right, and now just 12 months after my first 2K event in London in October 2012 I am the first President of the International 2K TeamRacing Association! Wow that was fast!

For all of this I would like to thank Bruce Hebbert , without whom I do not think we would have today an International 2K TeamRacing Association. Bruce has been so determined in the developing of this format which convinced me and so many others that this is the future of club racing.

For 2014 we will have nearly one event per month and already the first two events in Gran Canaria and Monaco are fully booked.

In Italy I have already received requests from some three or four Clubs asking to host a 2K Event, this gives me great satisfaction and means that in a few years we will have national qualifications to participate at the European Championships!

It is my very first intention to cooperate with all the other 2K officials to develop a sound constitution that will allow all the members to vote for an elected President.

I wish you all good (Team) racing for 2014, and thank you in advance for helping this young Association to grow in the interests of all us Team Racers

Filippo M. Molinari
